Good Afternoon Stu

I would like to thank you and your Team for the Outstanding effort that they are all making in the Line 2 Line office.

I was most impressed with the high standard that your staff show me last week and the professional attitude towards their work and fellow workers. It was just outstanding.
The energy levels from L2L are something that I don't see very often as I do visit several operations like yours across the country. It is the one that I now measure all others by.

The sales coming to WorldxChange are of a very high standard and think it is a reflection of the people you employ.

It was a great pleasure to meet you all last week and am looking forward to my return trip next week.

I am excited about what the future holds for both companies going forward.

Once again thankyou and your staff for the special effort

Regards

Paul McGilly
